Terms

Our Terms are CASH.

Please remit by Postal or Express Money Order—Certified Check or Bank Draft. Twenty-five per cent (25%) of purchase price required as Deposit, if C. O. D. shipment is desired.

When shipment is wanted by Parcel Post, remit enough to cover postage. We will refund any excess.

Write order plainly, giving name of article and catalog page, using our order blank, wherever possible. Give full shipping instructions. All shipments are carefully packed by us, and if damaged in transit, report the same at once to transportation company and advise us immediately.

All Prices in this Catalog are Subject to Change Without Notice.

Repair Department

Exhibitor—Take Notice—Listen

Don't forget us if you want any repair work on your machine.

We do EXPERT REPAIRING AND OVERHAULING ON ALL MAKES OF MOVING PICTURE MACHINES, no matter in how bad condition they may be. Our charges are based on the new parts used, plus a reasonable charge for labor. Turn your next Repair Job over to EXPERT MECHANICS.

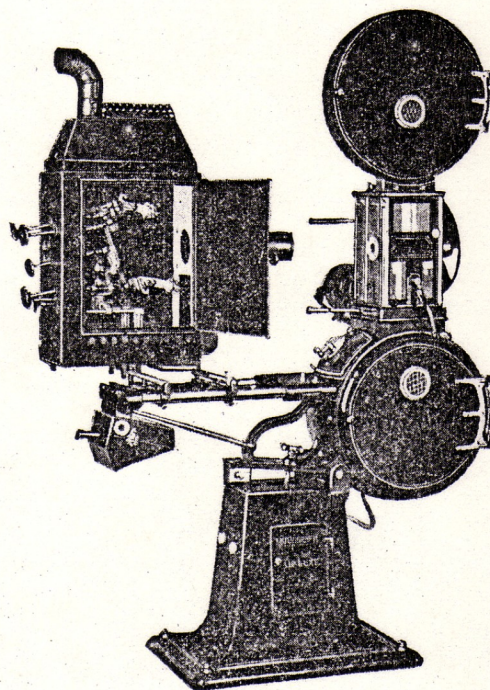

Machine Parts

We carry in stock at all times a complete line of PARTS for Simplex—Powers—Motiograph and Edison Machines.

See Page 23.

Spotlights

The Present Day Theatre Is Not Complete Without a Spot and Flood Lamp Equipment.

Baby Spotlight

This lamp, Fig. 315, is a very handy, compact, light weight spotlight for short range spot lighting or illumination. It gives a clear, circular field of light. It is equipped with a 5-inch lens color frame holder and Edison receptacle for 250 watt concentrated filament lamp. The housing is made of Russia Iron with a well cast aluminum front, rear and bottom. Receptacle is arranged for focusing, having a universal arrangement for centering lamp with the lens.

Furnished with telescopic stand, base and 25 feet of cable.

General Electric Mazda Equipment

The G. E. Incandescent Lamp Projector for Motion Pictures

The G. E. Mazda Equipment is a complete unit that can be attached to Simplex, Powers, or Motiograph Machines.

Field of Application

The new 900 watt National MAZDA Motion Picture lamp with the G. E. Incandescent Lamp Projector can be used successfully in theatres having main floor seating capacities up to 1,000, or picture widths up to 16 feet, or throws not exceeding 120 feet. It gives better results than an A. C. arc and is the equal of the D. C. arc up to 50 amperes and consumes about one-third of the current used when operating with the arc lamp.

Price complete as described above, with regulator.

"Motsco" Pastil

More Light, Most Economical and Last Longest

The "Motsco" Pastil produces at least 40 per cent greater density of light than limes for calcium lights or gas in tanks. Does not pit nor is it affected by the atmosphere. Can be used for many and many performances.

Price, Large Size, six for	\$5.00
Each	.95

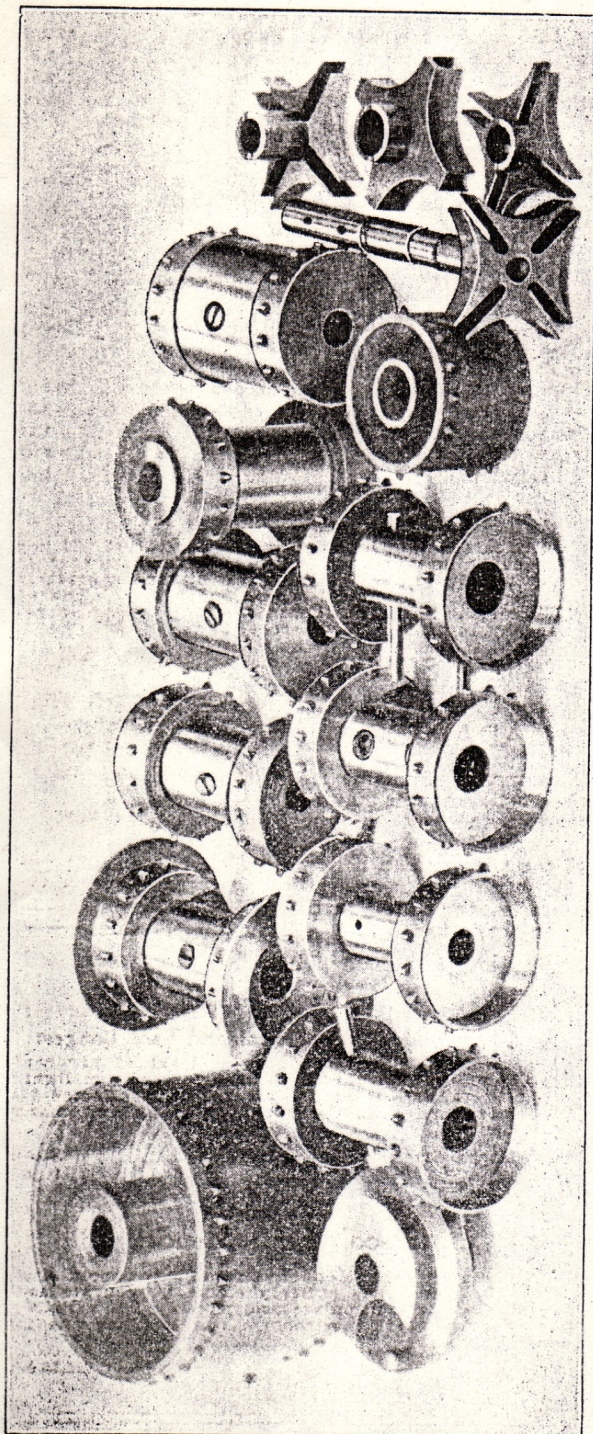

"Motsco" Film Mender

The Monarch Film Mender, although the most simple on the market, is entirely efficient, accurate and true; is easy to manipulate and saves much valuable time in your operating room. You can use one to good advantage.
